Enjoy!

Things are going well here. We're happy to have so much produce in October!

We're continuing to harvest as quick as we can each afternoon/evening to make use of the fast fading daylight. It is nice to get into the house around 7 though. We continue to watch the weather for frost warnings and make plans every day or two about what we are going to try and save and what we are going to let go. I weeded the lettuce and spinach this past weekend. (Maybe for the last time?)

If you have any extra Threshing Table Farm bags or boxes lying around, please return as soon as you can. We seem to be running a bit low on those items.

Chickens are here!

If you ordered chickens from Farm Sweet Farm, they are here. Please give us a call and let us know when you want to pick up your chicken. Payment is due at the time of pick-up.

**We still have Canning Tomatoes!
\$20 per 3/4 bushel box**

Hurry! Hurry! We will lose many of them to the first good frost. If you want to get some great tomatoes for canning or freezing, now's the time!

Goblin Egg Gourds

We planted a few gourd plants with the help of St. Mary's Kindergarten class last spring. They've collected the gourds they want, so we're sharing the extras.

Gourds are not recommended for eating, but they make nice fall decorations.
Happy October!
(We will have pumpkins next week.)

Have a great week!
